

Inclusive Skating Guidance on Technical Elements Calling Procedures

Element	Inclusive Skating General Principle	Practical Guideline	Grade of Execution score range	Average/ Base GOE
All	Element must be recognisable to Technical Judge	50% of the element is performed and attempts called	0.01 – 6.00	3.00
All	Element must be recognisable to Technical Judge	Element is placed within musical structure	Increase GOE range by 1.00	4.00
All	Element must be recognisable to Technical Judge	Element is performed at speed	Increase GOE range by 1.00	5.00
Level 1, 2 and BHF	Element must be recognisable to Technical Judge	Element performed on flats and/or two feet	0.01 – 6.00	3.00
Levels 3 and 4	Element must be recognisable to Technical Judge	Element performed on edges	1.00 -7.00	4.00
Levels 5 and 6	Element must be recognisable to Technical Judge	Element performed whilst demonstrating changes of edge and control of rotation	2.00 -8.00	5.00
Increase GOE range by 1.00 for difficult position, entry or exit providing aesthetic element performed throughout - GOE range increases to 10.00				

Spins				
Spin/ three turn	Entry three turn performed	Spin recognisable but no centre of spin established	0.01-1.00	0.50
Spin clearly recognisable	1 rotation performed (entry three turn plus ½ rotation)	Centre of spin established	0.01-2.00	1.00
Spin established	1 ½ rotations	Spin established	1.00 - 3.00	2.00
Spin maintained	2 rotations	Spin maintained	2.00 - 4.00	3.00
Spin sustained	2.5 rotations	Spin sustained	3.00 – 5.00	4.00
Spin fully established	3.00 or more rotations	Spin fully established + position clear	4.00 – 6.00	5.00
Spin position	½ rotation	Position identified	GOE reflects Quality of position and the number of revolutions in position	
Upright spin	Standing leg close to upright	Call Upright spin		
Sit-spin	Free foot below standing knee + standing knee bent	Call sit-spin		
Camel Spin	Free foot behind + above standing knee	Call camel spin		
Layback spin	Standing hip moves forward/ side from centre axis	Call layback spin		
Increase GOE range for difficult position, entry, exit, change in speed, direction or edge providing aesthetic controlled spin throughout
