

INCLUSIVE SKATING – FINANCE TRUSTEE

Position: Board Member/Charity Trustee

Organisation: Inclusive Skating

Inclusive Skating is seeking to supplement the Board of Trustees with a Financial Trustee to work with the Board in developing the next exciting phase of growth. Interested candidates will bring an established background in financial practice applicable to a small and growing membership organisation, and have strong empathy with diversity and those with impairments or physical disabilities within the world of sport.

Inclusive Skating is a charity registered in Scotland with an operational reach across England, Wales and Ireland and is currently developing associated international links. The principal aim of IS is to advance participation in sport whilst promoting and facilitating equality and diversity. IS aims to make skating open to all within a supportive environment for those facing additional challenges. Despite recent restrictions on available skating facilities IS has become a leader in adaptation of practice and forward thinking in alternative ways of development and support.

The current Board of six Trustees is chaired by founder Margarita Sweeney-Baird. Board members are appointed for an initial period of four years.

The Person: You will be an enthusiastic and hands on team player with a strong commitment to equality. Your background will include professional accounting and financial practice and you will have the interest and ability to help guide organisational growth and lead on financial management. You will have good and practical financial skills to help inform and implement recommendations and processes in a developing organisation. Clarity through all forms of communication will be implicit.

The Role: As an active Board member you will help to guide and oversee the development of financial practices and reporting for various funders. You will review and report on the accounts and ensure sound financial management and planning is maintained within the organisation's objectives.

Commitment: The Board currently meets virtually in the evening five times a year. Virtual meetings will continue as existing Trustees are located variously in Scotland, London, Ireland and Australia. Other working meetings and reviews are also virtual as required, so the geographical base of Trustees is flexible. All Trustees are required to register with Inclusive Skating and comply with appropriate policies.
